### **About CFP Certification and AFP™ Certification**

The CFP certification is the world's oldest and most-recognized advanced certification for financial planners. To obtain the CFP certification, individuals have to satisfy the “4E” requirement of Education, Examination, Experience and Ethics. The certification process ensures that all CFP professionals are committed to providing competent and ethical financial planning services to clients.

The AFP™ certification equips financial industry practitioners with a wide range of core competencies in financial planning for their everyday professional needs. Individuals who passed the CFP certification examination (Foundation Level) may obtain the AFP certification after satisfying the rigorous “4E” certification requirements before moving onto the CFP certification.
